Rationale/ Linking	This introductory unit centres on a 20th century novel with issues that engage students and link to the THOMAS character curriculum – in particular the exploitation of power. The themes complement the poetry unit in the same term. Assessment is open book but modelled on AQA Y9 papers, to begin the bridge to KS4.	Building on work from Y7/Y8 unseen poetry, and linking to Y9 History curriculum, students are taught to interpret poems in light of context. Students begin to practice closed book assessment on a limited range of poems, increasing the cognitive demand compared to lower years. Texts include 19th Century choices. Early comparison is introduced.	Rhetoric underpins transactional writing. This unit introduces rhetoric as a concept, focusing on conventions of formal speeches and letters, building on earlier KS3 non-fiction work and looking to some of the genres to be assessed in KS4. Students explore a range of texts from diverse authors, past and present, covering a range of contemporary issues linking to THOMAS character.	In explicitly considering standard and non-standard English in drama, stereotypes, and how authors manipulate expectations, students build on earlier work on these variations in transactional contexts. Students explore cultural issues around stereotyping and power, supporting THOMAS character, and develop script writing skills.	Students build on their study of rhetoric, applying their earlier studies to their own writing. Public speaking skills modelled in Spring 1 are refined and applied. Students then build on Y8 ‘Gothic’ scheme by studying two challenging short stories, building analysis skills and emulating aspects of text in original writing. This is supported by external workshop on public speaking.	This unit consolidates Shakespeare work from middle schools, ensuring statutory NC coverage of Shakespeare’s plays. The written element consolidates work on writing for specific audiences and purposes from previous units, preparing students for KS4 Shakespeare.
Assessment	Exam style assessment each half term for each topic, requiring extended responses and marked utilising markschemes adapted from KS4. Feedback and next steps sessions based on whole class feedback and individual areas for development.			Learning Resources	All texts provided by school – students to retain anthologies with own annotations to support work in Year 10/11. Bedrock vocabulary online access provided by school as part of weekly homework expectations.

Rationale / Linking	Students start with the exam skills most different to KS3 – P2 perspectives, and P1 structure. Reading and writing skills are interwoven throughout.	This unit builds on Y9 Macbeth, where tragic conventions and dramatic features were established. Students complete a full read through, considering key moments / choices	These units refine work in Autumn, building from identifying perspective, to comparing perspectives and writing objectively for audience. External workshops support debate skills. In Paper 1, students develop non-linear narratives, adding complexity.	In Y9, students studied a core selection of poems: here students complete the full anthology section. Comparison skills are developed, focusing on contextual linking (historical weakness).	These units focus more on writing, training students in the use of Section A texts to support Section B responses. Focus of writing is similar to 'Festivals,' but written mode and in persona. In Summer 2, students experience more challenging narrators.	In Y9, students explored a modern play with similar ideas. Here, they study the short but powerful "well made play," drawing on Y9 and Shakespeare studies.	
Assessment	Past paper assessment each half term for each topic, requiring extended responses and marked utilising exam markschemes. Feedback and next steps sessions based on whole class feedback and individual areas for development			Learning Resources	Students expected to have their own copies of: Romeo and Juliet (William Shakespeare) An Inspector Calls (JB Priestly)

Rationale/ Linking	These units are designed to complement the study of "A Christmas Carol," through close analyses of contemporaneous non-fiction texts, leading to students' own opinion articles informed by wider knowledge.	This text relates well to the issues and ideas explored as part of "People and Poverty" in the concurrent Language scheme, and covers the requirement for a 19th Century novel.	This unit is designed to highlight the skills shared across the 2 Language papers, securing core exam technique and reinforcing strategies to draw on Reading sections to inspire Writing sections. It also extends earlier work on structures o Q5 texts, considering non-linear narratives.	These units review learning from Y9 and Y10, seeking to secure key ideas in long term memory. It is more than simple retrieval, however: students here apply their whole text understanding to key themes.	This unit consolidates and secures unseen examination practice, ensuring students are in an optimal position to enter the examination season.	These units review learning from Y10, seeking to secure key ideas in long term memory. It is more than simple retrieval, however: students here apply their whole text understanding to key themes.
